

ANNEXURE 5

List of Mobile Creches' Publication and Training Materials in 2023-24

S. No	Topic	Description	Type
Research Studies (Evidence)			
1	Choking Futures: How Air pollution robs the breath of our youngest? A qualitative study assessing the impact of air pollution on the first 100 days of children in Delhi.	This study explores the impact of severe air pollution in Delhi on young children's health and well-being, and examines how families, caregivers, healthcare professionals, and childcare workers mitigate these effects.	Report
2	Need, demand and Effectiveness of Childcare Models for Children Under 3 Years of Age in Selected States of India	This study examines the demand, status, and conditions of public-funded creches for children under three in Odisha and Kerala, focusing on unique childcare needs and evaluating care models and their impact.	Report
3	Financing Quality Childcare Facilities in India.	This study examines the costing of varied models of creches required for scale (in partnership with IWWAGE)	Report
4	Assessing determinants of malnutrition in under-5 children of migrant population at construction sites in Delhi NCR.	A study to understand the various determinants of malnourishment amongst under five children through qualitative method.	Report
5	Status of full vaccination for 12-23 months children accessing MC and partner run creches in Delhi NCR.	A survey to know the status of full vaccination among 12-23-month children along with the enablers and barriers for vaccination.	Report
6	Report of Rapid Survey on Childcare Services for Children of Women Working in Informal Sector	To assess the state of childcare services in Bihar, specifically focusing on children of women employed in the informal sector.	Report
7	Prioritising Childcare Beyond G20	This document is a brief encapsulation of the major points of discussion undertaken during this meeting organized by National FORCES.	Report
8	Status of nutrition services under ICDS in Uttar Pradesh	UP-FORCES conducted a survey with its allied organization to assess nutritional services in AWCs and identify bottlenecks in referral services for malnourished children in the state.	Report
Evidence-based communication for advocacy and awareness-raising			
9	Financing childcare in India A State Responsibility	This document emphasizes on identifying and addressing the demand-supply gaps in financing childcare for all children under 6 years in India	Policy Brief
10	Unpaid care work and women's economic participation	This document highlighted the factors such as the burden of unpaid care work on women, gender-based cultural norms such as gender-based division in paid and unpaid work and limited work opportunities for women.	Policy Brief
11	Creches enable children's wellbeing	This policy brief lays out a comprehensive set of arguments for the state to invest in quality childcare in an institutional setting such as crèche.	Policy Brief
12	Non-parental care and labor force participation policy scope in new labor codes	This paper looks at how the existing and proposed labor policy of India overlooks the responsibility of childcare shouldered by women, especially its underlying dynamics of gendered work and double burden.	Policy Brief
13	Childcare workers and decent work	This policy brief makes an argument for better working conditions for all childcare workers, primarily focusing on Anganwadi workers and helpers employed under the world's largest program for early childhood care and development.	Policy Brief
14	Pathways to stakeholder convergence for universalization of childcare	This document examined how the stakeholder convergence approach can be adopted using different strategies to create sustainable childcare models.	Policy Brief
15	Locating childcare in the context of climate change	This document attempts to delve into the linkages between climate change and childcare through the lens of gender responsiveness.	Policy Brief
Published Knowledge Pieces			
16	Measuring for change/Mobile Creches	Measuring for change/Mobile Creches (frontiersin.org)	Frontiers
